\$75.00 Fee and Check #

Empty box for office use only.

Submittal Acknowledgement

The submittal of this application does not constitute approval of the proposed plan. Written notification of the Design Review Committee's decision will be supplied to the Homeowner within 30 days after receipt of all required information. Construction must not begin until the Committee has approved the plans in writing. As the Homeowner, I have read and understand Daybreak's Design Guidelines, Landscape Planting Requirement and applicable Governing Documents concerning design and construction in Daybreak. As Homeowner, I acknowledge that the persons reviewing the plans and specifications will change from time to time and that opinions on aesthetic matters, as well as interpretation and application of these guidelines, may vary accordingly. In addition, I acknowledge that it may not always be possible to identify objectionable features of proposed improvements until the improvements have been completed, in which case it may be unreasonable to require changes to the improvements involved. However, the Committee may refuse to approve similar proposals in the future. Approval of application shall not constitute an approval, ratification or endorsement of the quality or architectural or engineering soundness of the proposed improvements and neither the Committee nor the Board shall have any liability for any defects in the plans, specification or improvements. I agree to pay any costs incurred by the Association if I fail to meet the standards established by the Committee and the Board of Directors.

Required Checklist for a Winning Exterior Color & Feature Modification Plan

This application is necessary for color change modifications only. If the home is being repaired or repainted the same color, it is not necessary to fill out an application. You will have greater success in having your plan approved in one review if you provide a very specific and detailed plan. The Design Review Committee would like to see complete plans. A complete plan is one which includes as many of the following elements as possible, such as proposed color of:

1. Body of Home (siding, stucco, etc.)
2. All Trim (including: window trim, door casings, etc.)
3. Doors (all locations to be modified)
4. Garage Door
5. Soffit
6. Fascia
7. Shutters
8. Foundation Color Coating

Here is a list of the paperwork that you will need to submit. Check the boxes as you go to make sure you include everything:

- Design Review Application for Exterior Color Modifications completed and signed.
- Pictures of proposed improved areas as well as wide angle pictures of your lot/home. You may email photos to us.
- Pictures of adjacent homes.
- Submit proposed color samples / paint chips including the brand, sheen and color name identifying which areas of the home will undergo a change and proposed color.
- \$75.00 design Review Fee.
- All improvements must comply with Daybreak's Design Guidelines.
- All approvals are valid for 1 year. If your approval expires before you project is completed, you will need to submit for an extension or resubmit your plan.
- With your approval letter you will receive an approval notice to post in your front window during installation of the project. Once your project is complete, please sign and return this permit to the HOA office.

Exterior Paint Modification – Paint Chip Colors

All paint applications require actual, not digital, paint chips

Resident Address _____

Body of Home

Please place paint chip here with brand and number of paint, if modifying

All Trim *Soffit, Fascia, Railing, Columns

Please place paint chip here with brand and number of paint, if modifying

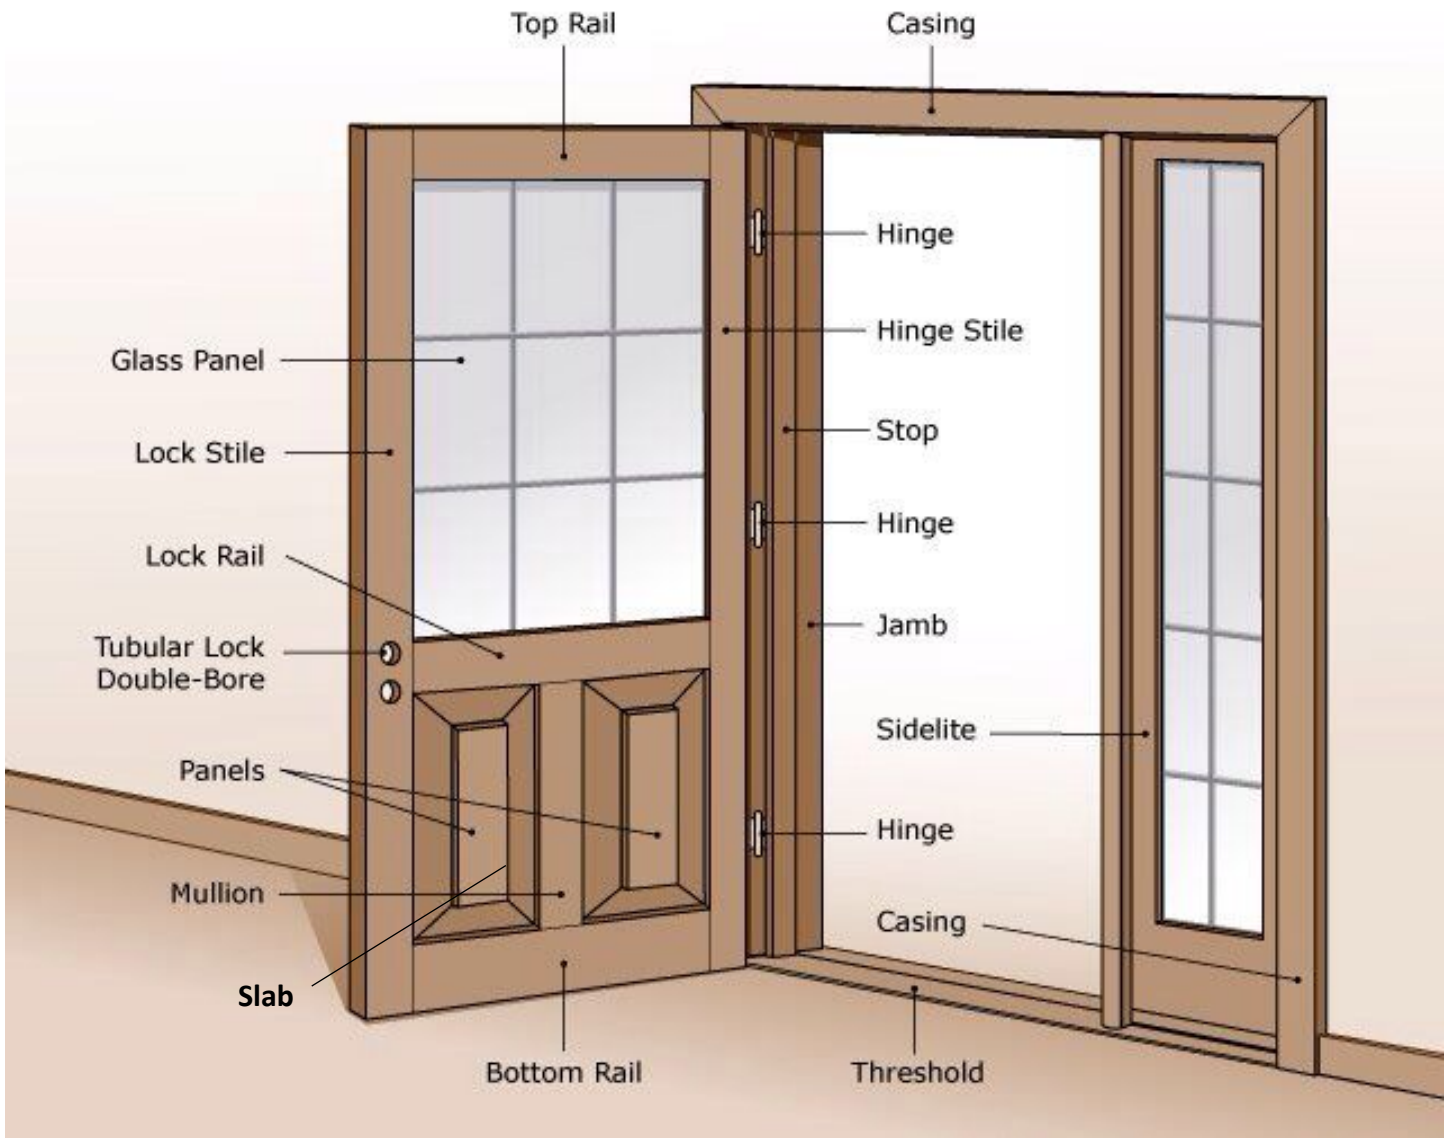

All Exterior Doors -- front, side, back & *garage

*Accent color on doors may be on the "slab" (movable portion) ONLY; not trim, jamb or casing
Please place paint chip here with brand and number of paint, if modifying*

Shutters, if applicable

Please place paint chip here with brand and number of paint, if modifying

***Note** - It is recommended to NOT paint metal on the home as this then becomes a maintenance feature. If choosing to paint metal, make sure to prime the surface first, paint and then seal it to deter chipping and peeling of the paint.

Door Slab ONLY may be painted (not jamb or casing)
